Vervloet is an outstanding reference with more than a century of experience in the field of decorative hardware. Every piece of Vervloet's collection is moulded and cast in the purest bronzes and brasses, then chased and finished by highly qualified craftsmen. The company offers a vast range of possibilities. Thousands of models, result of several generations of master bronze craftsmen.

Tibou is a minimalist design created by Belgium-based designer Quentin de Coster. This is the first collection of hardware for children developed by Vervloet which combines the latest technologies and ancestral know-how. All the elements of the 'Tibou' collection incorporate a small hook on their front face, a simple and innovative second function for lever handles, furniture knobs, to attach to the door, bags, keychain and any other item a kid would bring in his room. Tibou is available in Brass and Nickel.
